90-Day English Communication Training Plan

Primary goal: clear, confident interview communication in simple English

Your priority order: (1) Explain your thoughts clearly in interviews → (2) communicate confidently with strangers and senior people → (3) storytelling. Grammar, vocabulary, listening and fluency support all three.

Core principle: Do not study English only to know English. Practice English to communicate. The target is: **THINK → STRUCTURE → SPEAK → RECORD → ANALYZE → FIX → REPEAT.**

1. Your Current Starting Point

Skill	Approx. starting point	Main issue to solve
Understanding	7/10	Good comprehension; keep building input.
Vocabulary	6/10	Enough for work/interviews; learn useful phrases in context.
Grammar	4.5/10	Tenses, articles, prepositions, subject-verb agreement.
Sentence structure	4/10	Main practical weakness: converting thoughts into clean sentences.
Fluency	5.5/10	Pauses/blank moments while framing sentences.
Idea communication	6/10	Ideas are clear; delivery needs structure and repetition.

2. The 90-Day Roadmap

Phase	Days	Main objective	Target outcome
1 — Foundation	1–30	Sentence structure, speaking grammar, thought organization, basic interview answers	2–3 minute answers on familiar topics
2 — Explainer	31–60	Technical explanations, why/how answers, follow-ups, professional explanations	3–5 minute explanations with logical flow
3 — Interview & Professional	61–90	Mock interviews, pressure, behavioral answers, storytelling, and real interview conversation	Handle a full interview conversation without scripts

3. Daily Routine — 45 Minutes

Time	Activity	Exactly what to do
10 min	Grammar	Study ONE high-frequency speaking pattern. Write 5 personal examples. Say them aloud.
10 min	Quality input	Listen to good English. Capture only 2–3 useful phrases/sentence patterns.
10 min	Speaking	Choose one topic. Organize keywords, then speak for 1–3 minutes without reading.
10 min	Record + analyze	Listen once. Find 1 grammar error + 1 structure issue + 1 word/phrase issue.
5 min	Re-speak	Give the same answer again using the corrections. Do not memorize a script.

4. Weekly Schedule

Day	Focus
Mon	Grammar pattern + interview question + recording
Tue	Sentence structure + JobHub/technical explanation
Wed	Listening/input + retelling in your own words
Thu	Interview answer + follow-up questions

Day	Focus
Fri	Real-life/professional conversation practice
Sat	Long speaking session + story/experience
Sun	Weekly test + review error bank + score 6 skills

5. Phase 1 — Foundation (Days 1–30)

Goal: stop translating word-by-word, improve basic sentence formation, and build the ability to speak clearly about familiar subjects.

Week	Grammar / language	Speaking focus	Deliverable
Week 1 Days 1–7	Basic sentence patterns; present/past/future; be/have/do; subject–verb agreement	Introduce yourself, college, daily routine, Job-Hub	1–2 min self-introduction
Week 2 Days 8–14	Questions, negatives, articles, prepositions, common connectors	Answer simple interview questions	10 common interview answers
Week 3 Days 15–21	Past vs present perfect; modals; comparatives; common verb patterns	Explain what you learned/did and why	2–3 min technical explanation
Week 4 Days 22–30	Common recurring errors from your Error Bank	Interview mini-rounds + follow-ups	Day-30 baseline comparison

Phase 1 rule: grammar is learned through speaking.

For every grammar lesson: learn the idea → create 5 sentences about your real life → speak them → use the pattern in your next conversation. Do not spend the session making long grammar notes.

6. Phase 2 — Become an Effective Explainer (Days 31–60)

Week	Focus	Practice
Week 5	Explain concepts	React, REST API, JWT, MongoDB, pagination, Git
Week 6	Why + how answers	Why you chose a technology; how you implemented a feature
Week 7	Follow-up handling	Answer a main question, then handle 3 unexpected follow-ups
Week 8	Professional communication	Talk to a senior, ask questions, disagree politely, clarify requirements

Core interview structure

ANSWER → REASON → HOW → EXAMPLE → RESULT

Example: “I implemented pagination because returning all jobs at once would not be efficient. I used page and limit parameters and calculated the skip value. For example, page 2 with limit 10 skips the first 10 jobs. This keeps the response focused and makes the API more scalable as the number of jobs grows.”

7. Phase 3 — Interview + Professional Communication (Days 61–90)

Week	Focus	Practice
Week 9	Behavioral answers	Tell me about yourself; strengths/weaknesses; failure; conflict; achievement
Week 10	Storytelling	Situation → Problem → Action → Result → Learning
Week 11	Interview pressure	Random questions, follow-ups, unknown questions, thinking aloud
Week 12	Professional confidence	Mock interviews, senior conversations, concise explanations
Days 85–90	Final assessment	Repeat baseline tasks and compare against Day 1 recordings

8. Resources — What to Use

Resource	Use it for	How to use it
Dev Spoken English / similar speaking-focused channel	High-frequency grammar for speaking	One lesson at a time. Extract the speaking pattern, make 5 personal senter
BBC Learning English	Listening, vocabulary, natural sentence patterns	10 minutes of active listening; note only 2–3 useful expressions.
VOA Learning English	Slower, clear listening practice	Use when normal-speed English feels difficult.
YouGlish	Real-world pronunciation and usage	Search a word/phrase and listen to it in multiple real sentences.
Your own recordings	Fluency and self-correction	Most important resource. Record daily and compare weekly.
ChatGPT (coach)	Correction, mock interviews, structured practice	Send your unprepared English answers; get corrections and repeat the ans

Important: Do not collect resources endlessly.

Pick one grammar source + one listening source + your recordings + coaching. More resources do not automatically produce better English. Consistent output and correction do.

9. Your English Error Bank

Keep one notebook/page called **MY ENGLISH ERROR BANK**. For every important mistake write:

My mistake	Correct	Rule/pattern	My new example
React have…	React has…	Singular subject → has	React has reusable components.
I am agree…	I agree…	Agree is a verb	I agree with this approach.
Your own error	Correct form	Short rule	Your own sentence

Rule: your mistakes become your grammar syllabus.

10. Confidence Training — Stranger & Senior Communication

Level	Task	Move up when…
1	Speak to yourself for 2 minutes	You can continue without stopping completely.
2	Record yourself daily	You can listen without avoiding your mistakes.
3	Practice with ChatGPT	You can answer without preparing every sentence.
4	Talk to a friend/classmate in English	You can maintain a 5-minute conversation.
5	Ask a stranger a simple question	You can initiate without overthinking.
6	Talk to a senior/professional	You can ask, clarify and respond confidently.
7	Mock interview	You can handle follow-ups and uncertainty.

11. Anti-Blank Toolkit

When your mind goes blank, do not panic or start filling space with “umm… actually… basically…”. Use a professional bridge, pause, organize, then answer.

Situation	Useful phrase
Need time	“Let me think about that for a moment.”
Need structure	“I would approach this in two parts.”
Explain reasoning	“The main reason is…”
Clarify your point	“What I mean is…”
Don't know	“I haven't worked with that directly, so I don't want to give you an incorrect answer.”
Partial knowledge	“I understand the basic concept, but I would need to verify the implementation details.”

12. Storytelling Framework

S → P → A → R → L
Situation: What was happening?
Problem: What went wrong or was difficult?
Action: What did you personally do?
Result: What changed?
Learning: What did you learn?

Use this for project bugs, college experiences, failures, achievements, teamwork and behavioral interview questions.

13. Weekly Scorecard

Week	Thought organization	Sentence structure	Grammar	Fluency	Interview	Storytelling	Overall
Week 1	___/10	___/10	___/10	___/10	___/10	___/10	___/10
Week 2	___/10	___/10	___/10	___/10	___/10	___/10	___/10
Week 3	___/10	___/10	___/10	___/10	___/10	___/10	___/10
Week 4	___/10	___/10	___/10	___/10	___/10	___/10	___/10
Week 5	___/10	___/10	___/10	___/10	___/10	___/10	___/10
Week 6	___/10	___/10	___/10	___/10	___/10	___/10	___/10
Week 7	___/10	___/10	___/10	___/10	___/10	___/10	___/10
Week 8	___/10	___/10	___/10	___/10	___/10	___/10	___/10
Week 9	___/10	___/10	___/10	___/10	___/10	___/10	___/10
Week 10	___/10	___/10	___/10	___/10	___/10	___/10	___/10
Week 11	___/10	___/10	___/10	___/10	___/10	___/10	___/10
Week 12	___/10	___/10	___/10	___/10	___/10	___/10	___/10
Day 90	___/10	___/10	___/10	___/10	___/10	___/10	___/10

14. Daily Log

Date	Topic	Grammar mistake	Structure issue	New phrase	Repeated?
_____	_____	_____	_____	_____	Yes / No
_____	_____	_____	_____	_____	Yes / No
_____	_____	_____	_____	_____	Yes / No
_____	_____	_____	_____	_____	Yes / No
_____	_____	_____	_____	_____	Yes / No
_____	_____	_____	_____	_____	Yes / No
_____	_____	_____	_____	_____	Yes / No
_____	_____	_____	_____	_____	Yes / No

15. Paid Course Decision

Recommendation for now: stay with the free plan. Your bottleneck is not access to English content; it is output, feedback, repetition and confidence. Do not buy a course just for recorded grammar videos or PDFs.

Consider paying later only if it gives you something materially harder to get for free: **live speaking practice, immediate personalized correction, accountability, mock interviews, or a strong structured curriculum.** If you spend money, prioritize live feedback over more recorded lessons.

16. Rules for the Next 90 Days

1. Speak every day, even if only for 10 minutes.

2. Do not wait for perfect grammar before speaking.

3. Do not memorize complete interview answers.

4. Use simple English first; upgrade naturally later.

5. Fix only 1–3 important mistakes per session.

6. Keep an Error Bank and review recurring mistakes.

7. Record yourself and compare weekly, not obsessively every day.

8. Use your real software/project topics whenever possible.

9. Do not collect endless resources.

10. Measure progress by clarity and confidence, not by how “native” you sound.

17. How We Will Work Together

When you send me an English answer, I will act as your coach. I will separate: **(1) must-fix errors, (2) sentence-structure problems, (3) natural upgrades, (4) interview impact, and (5) one priority for your next attempt.** I will not rewrite everything into advanced English because the goal is to make *your* English stronger, not replace it.

> **Start command:** Send “Day 1” and begin the baseline speaking exercise. Do the answer yourself without a translator or prepared ChatGPT answer. The first recording/answer becomes our Day-1 benchmark.
